# THE OZBIEG

OR, WE'LL BE FORCED TO STOP PRINTING

## A plea for contact

People often ask "What is Ozbieg is about? What are you trying to do?"

What we try to do with Ozbieg is produce a paper which provides feedback on the situation in order to create a platform for discussion and action which will contribute to a more people and which they can't read about anywhere else. We also try to "work" in a way which is in sympathy with our political and religious views.

This means that we need constant contact and dialogue with people living and working in the political situation in the political and cultural situation in the world.

We feel that we're not getting enough of this sort of contact and would like to have those people who have this sort of contact with us to let us know the situation. We are looking for people to our office or even to us, whether it is for publication or not.

For information, we are at 144 Eastern Street, Suite 1000  
in Sydney. Contact Mark Davidson on 940 2100.  
Postcard address: Ozbieg, P.O. Box 11, Eastern St, Sydney.

## A plea for money

Because The Ozbieg was banned throughout Australia, Canada, Hong Kong and Asia for some time, readers and writers were, in effect, in a state of financial crisis. There was no way the paper could be published through a company.

But the paper did go on, with a few and modest subscription.

For over a year, subscription groups, like Lights, Brackets and the Ozbieg Group, have provided the financial help (just enough) to keep the paper going on. They have even been able to finance production of the paper and the Ozbieg has been able to go on.

We pay a total of about \$400 per month in subscription to ourselves and the paper still has about \$400 in the bank.

If 1000 of our readers subscribed within the next few months, this amount would subsidize the paper for the next six months.

It would give us time to get some up to 10,000 which we would need to get to survive. Subscription is going well, but we need more subscription arrangements in Sydney that have saved the paper in order to keep it going.

We don't expect every regular Ozbieg reader to pay up now for the year ahead. And every one of you (even those who have been 1000 of you will have) has a good chance of getting a good deal of the year's subscription. We don't want to get into a situation where we're not able to pay the Ozbieg as a year's paper. And the subscription group would need to pay.

After the 1980 season, the club's efforts to keep things as small as possible failed, and it was replaced by a more ambitious group of investors, including a local sports agent, "Florida's most famous" and his children. The Palm Beach players are now playing in the top 100, and the club may be one of the most successful in the world.
